SKILLS

- **Languages:** Java, JavaScript
- **Frontend:** HTML5, CSS3, Tailwind CSS, React.js
- **Backend:** Node.js, Express.js, Socket.io, REST APIs, JWT Authentication
- **Database & Tools:** MongoDB, MySQL, Git, Github, Postman, Vercel, Render
- **Core CS Skills:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Soft Skills:** Problem-Solving, Team work, Adaptability, Critical Thinking

PROJECTS

PayFlow – Employee Payment & HR Management System GitHub Live	May' 2026
• Built a multi-tenant HR & Payroll system with separate Admin and Employee dashboards. • Integrated Stripe and PayPal APIs for automated monthly salary payouts. • Designed a secure multi-tenant database with role-based access control. • Implemented real-time chat, attendance tracking, and employee management. • Developed a global autocomplete search for faster employee and payroll operations. Tech stack used: PHP, Laravel, MySQL, Tailwind CSS, Stripe API, PayPal REST API, OAuth 2.0	
PlanPilot – Project Management & Real-time Collaboration GitHub Live	Feb' 2026
• Built a real-time collaborative project management app using Socket.io for live state sync. • Implemented secure authentication with Clerk (multi-tenant user management). • Designed interactive dashboards with Recharts for productivity insights. • Integrated Monaco Editor for in-app collaborative coding. • Developed a secure team invitation system with join tokens. Tech stack used: React, Node.js, Express, MongoDB, Socket.io, Clerk, GSAP, Framer Motion	
Echo – AI-Powered Sentiment Analysis for Helpdesk Calls GitHub Live	Dec' 2025
• Built a full-stack MERN application to analyze customer sentiment from helpdesk call recordings. • Integrated Deepgram Nova-2 API for real-time speech-to-text transcription and sentiment analysis. • Developed an interactive analytics dashboard with charts for sentiment, call volume, and SLA tracking. • Implemented JWT authentication, secure audio uploads, and in-browser call recording. • Automated manager alerts and support notifications using email integration. Tech stack used: React, Node.js, Express, MongoDB, Deepgram API, Tailwind CSS, Recharts, JWT, Multer, Nodemailer.	

TRAINING

Lovely Professional University Certificate	Jun' 2025 – Jul' 2025
Placement Ace: Java Bootcamp (LeetCode-Codeforces Edition)	
• Applied core Data Structures and Algorithms concepts for placements. • Solved 100+ problems on LeetCode and Codeforces to improve problem-solving skills.	
Tech stacks used: Java, Data Structures and Algorithms	

CERTIFICATES

ChatGPT- 4 Prompt Engineering Infosys Certificate	Aug' 2025
Java Programming NeoColab Certificate	May' 2025
Human Computer Interaction NPTEL Certificate	Apr' 2025
Data Structures and Algorithm NeoColab Certificate	Dec' 2024
Responsive Web Design FreeCodeCamp Certificate	Nov' 2023

ACHIEVEMENTS

- Solved 600+ algorithmic problems across LeetCode, CodeChef, and Codeforces.
- Achieved contest ratings of 1600+ (LeetCode), 1400+ (CodeChef), and 1000 (Codeforces). [Codolio](#)

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.68	August 2023 - Present
Ram Krishna College	Madhubani, Bihar
Intermediate; Percentage: 83%	April 2021 - March 2022
Regional Secondary School	Madhubani, Bihar
Matriculation; Percentage: 82%	April 2019 - March 2020
